

Armacell Americas Headquarters to Relocate to Chapel Hill, NC

Move is the result of steady growth in corporate organization and manufacturing business

Chapel Hill, NC – October 26, 2015 – Armacell LLC, a global innovator in foam technologies and the world leader in the market for flexible mechanical insulation materials, will relocate its headquarters from Mebane to Chapel Hill, NC.

The Americas headquarters is moving into 10,800 square feet of class A office space in the Chapel Hill 40 office park off Weaver Dairy Road. Armacell, with approximately 275 local employees, has called Mebane home for more than 15 years.

The manufacturing plant opened in Mebane in 1995 as part of Armstrong World Industries. In 2000, Armstrong sold its insulation division and Armacell was founded as a new company. Today, in the Americas, Armacell operates five US manufacturing facilities, one in Canada and in Brazil. In Mebane, Armacell currently has over 444,000 square feet of building space including a manufacturing facility, warehouse, research and development space and offices. Armacell employs more than 2600 people worldwide, 600 in North America and now approximately 225 at its Mebane location.

“Armacell has enjoyed steady growth, and simply outgrew the Mebane offices. We are moving about 30 regional headquarters employees to the new Chapel Hill location,” said Jodi Cheek General Manager HR-Americas. “This was a great opportunity to design a workplace that encourages innovation and collaboration.”

The move frees up space in Mebane for expanded Customer Service, R&D and Technical Support teams. The decision to relocate also supports Armacell’s corporate values which include focusing on the **Customer Experience**, a **Commitment** to develop and motivate its people, fostering an environment of **Empowerment and Accountability**, encouraging absolute **Integrity** and promoting **Sustainable** growth with positive impacts on the communities in which we live.

For Immediate Release

“Armacell is pleased to have the opportunity to join the Chapel Hill community,” says Thomas Himmel, Vice President-Americas. “We look forward to this exciting step in the growth of Armacell.”

The move of Armacell’s regional headquarters for the Americas to 55 Vilcom Center Drive, Suite 200 in Chapel Hill was completed in early October. Armacell will celebrate its grand opening at a ribbon cutting ceremony with the Chapel Hill-Carrboro Chamber of Commerce staff and ambassadors, local community and business leaders and elected officials on Friday October 30th, from 2:00 to 4:00 pm.

About Armacell

Armacell is a world leader in flexible insulation foams for the equipment insulation market and also a leading provider of engineered foams. The company currently employs 2,600 people globally and in 2014 generated net sales of EUR 452.2 million. With its 23 manufacturing plants in 16 countries on four continents, Armacell follows a strategy of internationalization. The company operates within two main businesses: the Advanced Insulation business develops flexible insulation foam products for the insulation of mechanical equipment. The Engineered Foams business develops and markets light foams for use in a broad range of end-markets.

In addition to ARMAFLEX®, the world’s leading brand for flexible technical insulation, Armacell offers thermoplastic insulation materials, covering systems, fire protection and noise control solutions as well as special foams for a multitude of industrial applications. In recent years, Armacell has developed new insulation systems for the oil and gas market, core foams for composite materials, and low-smoke products that have set new standards in the industry. The Americas headquarters for Armacell LLC is located in Chapel Hill, NC. For more information on Armacell and its products, visit the website at www.armacell.us.
